INTRODUCTION

CPC's technical staff are well trained and experienced in various field of Engineering Services aside from their long-gained experience with famous consultants, Governments, Kahrama Company.

The project responsibility involves the following:

- Project Planning
- Construction Management
- Engineering Supervision
- Quality Assurance
- Safety Inspection
- Project Cost Control Purchasing and Material Supply

MISSION To sustain the high level of qualified personnel and build a Professional team committed to serve our clients. Our pledge is to establish lasting relationships with our customers by exceeding their Expectations and gaining their trust, through exceptional Performance by every member of the construction team.

OBJECTIVES To be one of the leading firms in the state of Qatar in the field of road Construction. CPC will do the best to offer excellent services by providing high quality of work and applying the latest available technology for the industry.

CORPORATE OVERVIEW On behalf of CPC Qatar, we are pleased to introduce our local Company. CPC QATAR established to accept new challenges in Earthworks field especially Construction of Asphalt Pavements and Road Marking. CPC QATAR has proved its capacity to undertake projects in its related fields due to excellence in workmanship, professionalism and timely completion. Guided by able and experienced management, coupled by able and specialized staff in each of its divisions

AREA OF SPECIALIZATION

- Construction / Maintenance of Roads:

CPC Qatar promises to meet customer's needs in terms of using the best product and application for the job. We ensure that the job will be done

right on the first time with as little Inconvenience to customers as possible. We focus on quality, Efficiency and service for creating significant value of the customer.

The main activities of road works involved are:

- Earth works
- Sub-grade works
- Sub-base works
- Asphalt works
- Traffic signs and road marking
- Interlock / kerbstone works

We trust this submission will be of interest to you and if there is any further requirement of information, please don't hesitate to contact us.

Thank you for giving us the opportunity to Brief our Company and we're looking ahead in co-operating with you in near future.

COSMO PROJECTS & CONSTRUCTION AND TRADING CO.

HEALTH & SAFETY POLICY

SAFETY POLICY

CPC strives to attain and maintain the highest possible level of safety practices on all CPC projects. CPC aims to achieve this through the implementation of the following:

1) OPERATIONAL SAFETY:

The Company and its employees are dedicated towards making sure that all operations are monitored for safety and are conducted and executed in the safest manner possible.

2) COMPLIANCE:

CPC will at all times comply with all Government Laws, Regulations and Company policies and procedures that have been established.

3) SAFETY MEASURES:

Assess Potential risks and hazards and develop safety measures to counteract these problems.

4) RESPONSE TO EMERGENCIES:

Safety awareness programs, safety drills and exercises must be conducted.

5) COMMUNITY AWARENESS & OUTREACH:

Encourage open communication and understanding between CPC and the community, this includes recognizing and responding as appropriate to community concerns about safety issues.

This policy needs the commitment and support of each employee and sub-contractors, management and supervisors at every level is requested to demonstrate dedication to the safety policy by means of informing and creating awareness of the policy to all employees and giving them the responsibility and resources to resources to address safety issues that may be encountered.

QUALITY POLICY

QUALITY POLICY

CPC Co., committed to supplying construction services of consistent quality that conform fully with company and statutory requirements and in meeting our client's documented and implied expectations in terms of technical, budget and time compliance.

Dedicated to the continual review, development and improvement of all aspects of its business, in particular: -

The development and improvement of the Company's construction services in line with client's needs and expectations.

The development of an efficient and effective Quality System and generally accepted best practices in the management of Construction Projects, a system which not only ensures that the construction quality is consistent, but also helps to ensure minimal wastage in all our construction phases

The evaluation, training and development of our employees in order to meet the company's objectives.

The ongoing development of the corporate culture that incorporates constant problem solving and continuous improvement, encouraging all employees to take total pride in, and responsibility for, their work and the development of better working practices.

Establishing and reviewing quality objectives for all levels that are realistic, achievable and measurable taking into cognizance preventive action for outside influences that could prevent the achievement of the objectives.

Management will communicate this policy to all employees and staff in such a way that it is properly understood and followed.
